**Champak Disposable Half Face Masks N95**

**Storage and Shelf Life**

- The shelf life of the mask is 3 years and the mask should be placed in a container and stored in a clean, cool, and dry atmosphere to ensure that it is protected against dust, chemicals, moisture, excessive heat, and direct sunlight.
- Low breathing resistance
- Long duration
- Highly efficient filtering media

**Instructions for fitting**

1. Take the mask and gently extend the elastic headbands one after another. Place the mask within hand, the noseclip pointing at your finger tip and the headbands hanging downwards.
2. Position the mask under the chin with noseclip facing upwards.
3. Pass the lower elastic headband over the head and place it on the back of the neck, then position the upper head around the head above the ears.
4. Then mould the nosepiece to the shape of the nose.

To check the correct fit, cup with both hands the respirator and exhale powerfully. If any airflow indicates leakage around the edges of the respirator, stretch the headbands again by pulling them backwards. If necessary, the length of the elastic headband can be shortened by knotting.

Then correct the position of the respirator and check again.

**Warning**

- It is not allowed to use the mask without proper fit.

**Champak Enterprise Co., Ltd**
No 255-1, Jharning St, Dadu Town, Tainan County, 735, Taiwan

Item No: A520
UI No: A520-K Revision 1
Contents: 20pcs

**Instructions for use**

1. Not for use in atmospheres containing less than 19.5 percent oxygen.
2. Not for use in atmospheres immediately dangerous to life or health.
3. Do not exceed maximum use concentrations established by regulatory standards.
4. Failure to properly use and maintain this product could result in injury or death.
5. All approved respirators shall be selected, fitted, used, and maintained in accordance with MSHA, OSHA and other applicable regulations.
6. Never substitute, modify, add, or omit parts. Use only exact replacement parts in the configuration as specified by the manufacturer.
7. Refer to User’s Instructions, and/or maintenance manuals for information on use and maintenance of these respirators.
8. NIOSH does not evaluate respirators for use as surgical masks.
9. This mask must not be used for more than 8 hours (working shift). Always discard and replace the mask when the breathing resistance becomes excessive or at the end of every working shift.
10. No alteration or modification is allowed. Never use damaged masks in that case discard these masks.
11. The wearer of the mask must be well trained to use properly before starting work. Facial hair (beard or sideburns) of the user within the area of the sealing edges of the mask may jeopardize the protection efficiency of the mask itself.
12. Before use of these respirators, a written respiratory protection program must be implemented, meeting all the requirements of OSHA 29 CFR 1910.134, including training, medical evaluation and fit testing.
